

Elitch Gardens Outdoor Classroom Day

May 11, 2017

Partners in Education

Be sure to stop by and check out these added educational activities in the park:

- Colorado Parks and Wildlife

www.cpw.state.co.us

Explore the Colorado wildlife right here at Elitch Garden's, with animal skins and skulls! Play a fun outdoor Corn Hole game, discover animal tracks, fossilized paw prints, and try your hand at the Backyard Bass fishing game!

- US EPA

www.epa.gov/students

Teaching students about the environment and making students environmentally aware. Come play various environmental games!

- **Nature's Educators**

www.natureseducators.org/education/

Connecting students to the environment by teaching them about the other creatures that live in it! Check out the interactive and educational booth with live birds of prey and/or reptiles! We hope that by connecting with our ambassadors and learning their personal stories, audience members will understand the importance of conservation.

- **Friends of Dinosaur Ridge**

www.dinoridge.org

Explore the geology and paleontology of dinosaurs. Cool fossil replicas to see and touch!

- **Molly Brown House Museum**

<http://www.mollybrown.org/learn/>

Denver Grows, Mining Lab, Titanic and other exhibits to teach students about Margaret's life and how she impacted not only Denver, but the world. There will be hands on elements with each of the programs.

- **HawkQuest**

<http://www.hawkquest.org/>

See live birds of prey up close! Get a chance to ask one-on-one questions with the experts about the birds, and receive information about the large birds.

- **Pop Culture Classroom**

www.popcultureclassroom.com

Pop Culture Classroom will have an arts & crafts station where students will create their own superhero characters and comics. Also an all age's forensics lab where students will decipher clues and use science to solve a mystery. And an area where students can create shields and masks for costumes!

- **GrowHaus**

www.thegrowhaus.org

The GrowHaus will be teaching students about seeds, plants and growing. Each student will also be able to plant their own seedling!

- **Cool Science**

www.coolspace.org

Cool Science will demonstrate to students the making of Dippin' Dots with liquid nitrogen. They won't want to miss this!
